

Presentation machined parts

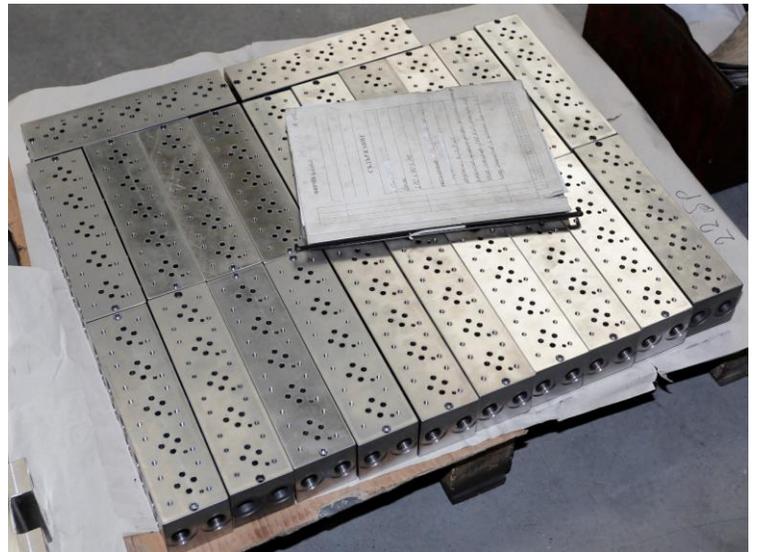

Products showcase

Hydraulic manifold block 6 sections. It is possible to produce blocks with up to 9 sections.

CNC machines

Factory profile:

- CNC machines:
 - with 5 and 4 horizontal axes.
 - with 5 and 3 vertical axes.
- Lathes – different dimensions:
 - for $\phi 100\text{mm}$
 - for $\phi 250\text{mm}$
 - for $\phi 350\text{mm}$
- Grinding machines:
 - for ensuring flatness,
 - for center grinding
- Gas (flame) cutting machines
- Furnaces for heat treatment at 900C.
- Painting line – powder coating.
- Can make manifold blocks up to 9 sections.
- Electrolytic galvanization.
- Testing up to 400 bar.
